

MBCP Website Redesign RFP Questions and Answers**11/15/18****1. Will you provide a list of new pages required for the website redesign?**

The number of new webpages will depend on proposed website redesign. For example, if the website company has a way to better organize a section of our website, the number of pages necessary may increase or decrease.

Some known extra pages that will be needed are a Programs Section with a total of 3 pages to begin. Also, each staff member should have their own webpage or a floating box with more information such as a bio. Another unknown is how the Spanish version may impact number of pages.

2. Multiple look and feel options are only required by the winning proposal correct?

Correct, however, you may provide multiple look and feel options within your proposal if you wish, and should you be short-listed and chosen to present, you may provide multiple look/feel options in your presentation to MBCP.

.

Thank you for your questions.

The final round of Q&A will be posted and emailed on 11/22/18
