

Notice of Funding Availability

Aimed at accelerating the adoption of new all-electric agricultural equipment to decrease reliance on fossil fuels, Central Coast Community Energy's (3CE's) Ag Electrification Grant Program supports local agricultural industry in the transition from fossil-fuel powered agriculture equipment to all-electric equipment.

Funding for 3CE's Ag Electrification Grant Program totals \$400k and is available to all 3CE customers in the Monterey, San Benito, San Luis Obispo, Santa Barbara and Santa Cruz Counties.

The Ag Industry makes up **8%** of CA's GHG emissions

The Central Coast Ag community has communicated an interest to invest in cleaner technology in order to **improve air quality** for surrounding communities and farm workers and **reduce local GHG emissions.**

3CE's Ag Electrification Grant Application Period: Jan. 25 - Mar. 25, 2021

Grant recipients will receive **up to 80% of the total project cost** (not to exceed \$20k) to assist with **"fuel-switching"** of agricultural equipment.
