

# NEW CONSTRUCTION ELECTRIFICATION GRANT PROGRAM

## Developer Incentive Track:

- ✓ Competitive grant for developers who are planning new **all-electric housing** construction developments within 3CE service area
- ✓ **\$2.1M** available funding for at least 830 all-electric housing units
- ✓ A minimum of 75% of funds will be awarded to **affordable housing** projects
- ✓ A maximum of \$240K will be awarded to single-family housing development
- ✓ January 22, 2021 Launch - 45 Day Application Period

3CE will award approved Multi-Unit Dwellings, Single Family Housing, and Accessory Dwelling Units as follows:

**\$2,500 per affordable housing unit**  
**\$1,750 per market-rate housing unit**

## Steps to participate in the Homeowner Rebuild Incentive:

1. Apply Online with details on your project schedule and documents showing intent to build an all-electric project. You can find details on document criteria on our website.
2. If approved, your funds will be reserved and you will receive a Letter of Intent that states the total grant for your project. Funds may be reserved for up to 3.5 years.
3. Receive grant funds upon project completion. You will need to provide:
  - Certificate of Occupancy or Notice of Completion
  - Inspection report showing that all electrical work has been completed and no gas lines have been installed
