## NEW CONSTRUCTION ELECTRIFICATION GRANT PROGRAM

### Homeowner Rebuild Track:

- ✓ **\$125K** available funding for homeowners in 3CE service territory whose homes were **red-tagged by Cal Fire during the 2020 wildfire season** and **plan to rebuild their homes** as all-electric
- ✓ Launches on January 22, 2021 and will be open until funds are fully reserved  
3CE will fund eligible projects as follows:  
**\$5,000 per single family home    \$2,500 per multi-unit dwelling or accessory dwelling unit**
- ✓ Applicants are eligible to apply for 1 Level 2 Electric Vehicle (EV) charging station to be installed in their new developments  
3CE will fund eligible projects as follows:  
**\$600 per single family home    \$1,000 per Charging Station for multi-unit dwellings**

### Steps to participate in the Homeowner Rebuild Incentive:

1. Apply Online with details on your project schedule and documents showing intent to build an all-electric project. You can find details on document criteria on our website.
2. If approved, your funds will be reserved and you will receive a Letter of Intent that states the total grant for your project. Funds may be reserved for up to 2.5 years.
3. Receive grant funds upon project completion and verification.
