CLEAN ENERGY. LOCAL CONTROL.

COMMUNITY EDUCATION AND WORKFORCE GRANT PROGRAM

GENERAL OVERVIEW

Central Coast Community Energy is accepting grant applications from organizations for projects and/or programs that advance electrification. Through the Electrification and Innovation Grant Program, CCCE is supporting community education and awareness about electrification and its benefits; and support workforce training and development

PROGRAM DETAILS

- Individual funding up to \$100,000 and available to community-based organizations, private for-profit businesses, public agencies, and schools or school districts
- Proposal must advance specific and measurable outcomes in the following categories:
 - Education and Awareness - Addresses education and outreach barriers that impact CCCE Energy Programs focused on Electrification
 - Workforce, Training, and Development - Addresses gaps in local workforce training and development slowing the advancement of electrification of the building and/or transportation sectors
