

# ELECTRIC SCHOOL BUS PROGRAM

## *Electrify Your School Bus*

**Replace your diesel school buses with clean running electric buses and reduce overhead costs while improving air quality!**

### **Who is eligible?**

Public schools and school districts currently enrolled in CCCE generation services. Schools within disadvantaged and income-eligible communities will receive priority funding.

### **Why electrify?**

- Cost effective to run and maintain by saving 72% on fuel and up to 80% in maintenance
- Emit less harmful pollutants and avoid 15.6 tons of greenhouse gas emissions each year
- Students riding an electric school bus are happier, healthier and safer. Clean air is linked to increased attendance, academic and physical performance, and cognitive functioning

### **When are program incentives available?**

- The electric school bus program runs through Oct. 2021 - Sept. 2022
- The incentives for the program cover 50% of the cost of an electric school bus, up to \$200,000
- Incentives are available on a first come, first served basis until funds are fully reserved

### **How do I charge my bus?**

CCCE is providing EV charger and installation rebates under the *Electrify Your Ride* program

**Apply and Learn More at**
