

Central Coast Community Energy's Electrify Your Home

Incentives available for heat pump HVAC and water heater installations

Central Coast Community Energy is offering substantial incentives to customers looking to convert from gas-fired appliances to heat pumps.

All contractors enrolled in TECH Clean California are automatically eligible. Claims are submitted through the TECH application portal, which can be found at catechincentives.com. Please select the corresponding TECH program in Iris to participate: "TECH Clean California - Heat Pump HVAC" for single family HVAC claims and "TECH Clean California - Heat Pump Water Heaters" for single family HPWH claims. As a reminder, information about what is required on a given claim can be found in the TECH Project Checklist available at switchison.org/contractors/tools.

A multifamily claim form is in development. The reservation form required to reserve funds for multifamily claims can be found at energy-solution.com/tech-incentives/multifamily.

Qualification Details

- **Participants** must be TECH-enrolled
- **Customers** must be confirmed CCCE customers. Low-income customers must be enrolled on a CARE/FERA rate.
- **Appliance minimum qualification:**
 - HVAC: Title 24 code
 - HPWH: NEEA Tier 3
- **Installations** qualify when gas/propane equipment are converted to HP appliances. No electric resistance to HP conversion; no need to have existing AC.

Single Family Heat Pump Incentives

Heat Pump HVAC:

Equipment Type	Size Category	Tier	Seasonal/Part-Load Cooling Efficiency	HSPF	Incentive per Unit
Unitary Split System and mini/multi-split	<5.4 tons	Baseline HP Replacement			\$2,500
		1	16.0 SEER	9.5	\$3,000
		2	18.0 SEER	10.0	\$3,500

HPWH:

Equipment Type	Previous Water Heating Fuel Type	HPWH Capacity	Incentive per Unit
Unitary HPWH	Natural Gas/Propane	<55 gallons	\$3,300
		>55 gallons	\$3,800

Additional Incentives:

These incentives are available on top of the incentives you receive for installing heat pumps:

Category	Qualifier	Incentive per Unit
Panel Upgrade	Up to 200 amps	\$2,000
Smart Load Center	N/A	\$2,000
Low-Income Adder	CARE/FERA enrollment	\$1,000

Multifamily Heat Pump Incentives

Heat Pump HVAC:

SERVING INDIVIDUAL APARTMENTS			
Equipment Type	Equipment Subcategory	Incentive per Unit (Market Rate)	Incentive per Unit (Low-Income)
Split and Rooftop HP	All	\$3,000	\$4,000
PTHP, SPVHP and Unitary Through-the-Wall HP	1-stage and 2-stage	\$750	\$1,000
	Variable capacity/inverter driven	\$1,500	\$2,000

SERVING MULTIPLE APARTMENTS			
Equipment Type	Equipment Subcategory	Incentive per Apartment Served (Market Rate)	Incentive per Apartment Served (Low-Income)
All HP HVAC	All	\$1,500	\$2,000

SERVING COMMON AREAS			
Equipment Type	Equipment Subcategory	Incentive per Unit (Market Rate)	Incentive per Unit (Low-Income)
Split and Rooftop HP	All	\$2,700	\$3,600
PTHP, SPVHP and Unitary Through-the-Wall HP	1-stage and 2-stage	\$450	\$600
	Variable capacity/inverter driven	\$1,200	\$1,600

HPWH:

Equipment Type	Previous WH Fuel Type	HPWH Capacity	Incentive per Unit (Market Rate)	Incentive per Unit (Low-Income)
Unitary HPWH	Natural Gas/Propane	<55 gallons	\$2,100	\$2,800
		>55 gallons	\$3,150	\$1,400

Equipment Type	Previous WH Fuel Type	HPWH Capacity	Incentive per Apartment Served (Market Rate)	Incentive per Apartment Served (Low-Income)
Central HPWH	Natural Gas/Propane	<17 gallons per bedroom	\$1,800	\$2,400
		≥17 gallons per bedroom	\$2,700	\$3,600

Additional Incentives:

These incentives are available on top of the incentives you receive for installing heat pumps:

Category	Qualifier	Incentive per Panel (Market Rate)	Incentive per Panel (Low-Income)
Electrical Upgrades	Increases electrical panel capacity to fully electrify all unit end-uses	\$2,000	\$2,800
