CLEAN ENERGY. LOCAL CONTROL.

Where Does Your Power Come From?

Central Coast Community Energy (CCCE) is on a pathway to supply 100% renewable energy by 2030. Together with our customers, CCCE is contributing to a cleaner, more reliable grid by investing in new solar, wind and geothermal projects throughout the state.

Why Electrify?

As clean, renewable energy powers more of California's grid, electricity itself is becoming a clean source of energy. We need to make the switch from fossil-fuels to clean, electric power everywhere we can. CCCE is offering cash rebates and incentives to electrify your home, ride, workplace and more.
