

AG Electrification Quick Start Guide

STEP 1:

Fill out the application form on our website at 3cenergy.org/rebates/ag-electrification-program-2 (“Application” tab). Once you have everything you need to apply, filling out the form should take about 10 minutes.

Please note that the application should be completed in one sitting as forms in progress cannot be saved.

WHAT YOU WILL NEED:

- Your Pacific Gas and Electric or Southern California Edison electric bill
- A brief description of your business and your project
- Details regarding the project:
 - Current equipment (type, make, model, HP, fuel type, run hours/year, fuel/year)
 - New equipment (type, make, model)
 - Total cost (equipment, chargers, labor/installation, control equipment/software)
- If applying as a small business, you will need to upload your last three years of tax returns

If available, you may upload supporting documents: Project schedule, equipment technical specifications, quotes or supplier estimates.

STEP 2:

Receive Letter of Intent (LOI) from 3CE for your eligible project, reserving Ag Electrification program funds until the project is complete.

STEP 3:

Provide proof of project completion (invoices, photos, etc.).

STEP 4:

Receive your rebate check in the mail at the address provided on the application.

If the program is already fully subscribed, new or unapproved applications will be put on a waitlist in case rebates should become available.

CLEAN ENERGY. LOCAL CONTROL.
