

# Electric Bus Program

## PLUG IN TO REBATES AND INCENTIVES

Replace your diesel-powered school or farmworker buses with clean-running electric buses and reduce overhead costs, while improving air quality

### WHO IS ELIGIBLE?

- Public schools and school districts
- Businesses that offer farmworker transport services

Applicants must be 3CE customers

### WHY ELECTRIFY?

- Electric buses are more cost effective to run and maintain than diesel
- Buses powered by cleaner energy emit fewer harmful pollutants and greenhouse gases
- Clean air is linked to better cognitive functioning, physical and academic performance, and increased attendance
- People riding an electric bus are happier, healthier and safer<sup>1</sup>

<sup>1</sup> Bureau of Transportation Statistics

### WHAT REBATES OR INCENTIVES ARE AVAILABLE?

- 75% of the cost of an electric school bus, up to \$200,000
- 50% of the cost of farmworker-transport buses, up to \$150,000
- Incentives available on a first-come, first-served basis
- Federal, state and county programs and incentives are also available; see the program web page under "Resources"
- 3CE's Electrify Your Ride Commercial Program offers up to \$3,000 for Level 2 chargers and up to \$5,000 for charging infrastructure, including materials and labor. Apply at <https://3cenergy.org/rebates/electrify-your-ride-commercial>
