

California Energy-Smart Homes Multifamily Low-Rise Whole Building Electrification Alterations Incentive Program

The California Energy-Smart Homes program is a residential new construction and alterations program that provides incentives to adopt advanced energy measures and transition to all-electric construction. The program supports California's focus on building electrification to meet climate objectives.

Qualifications

Multifamily low-rise (three stories or fewer) properties are eligible to enroll one or more buildings for whole building electrification incentives, the program does not require the entire property to convert to all-electric to be eligible for incentives.

Eligibility

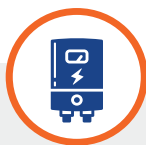

Energy-Smart Homes Multifamily Low-Rise Whole Building Electrification Alterations incentives are available to electric utility customers in Pacific Gas and Electric Company (PG&E®), San Diego Gas & Electric Company (SDG&E®), and Southern California Edison Company (SCE®) territories.

Prerequisites

Each enrolled multifamily low-rise building must complete whole building electrification, converting all gas appliances and equipment to advanced electric systems including:

Heat pump space heating
 (Ductless mini-split heat pumps or residential central heat pumps SEER 15 or greater, HSPS 8.7 or greater)

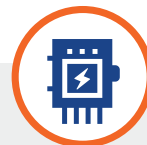

Heat pump water heating
 (in-unit or central heat pump water heater)

Electric or induction cooking

Electric clothes dryer
 (Bonus incentives are available for heat pump clothes dryers)

Infrastructure upgrade
 (Not required, but bonus incentives are available)

Participation Requirements

- Complete whole building electrification alterations in one or more multifamily low-rise buildings.
- Be located in the PG&E®, SDG&E®, or SCE® electric service territory and pay the Public Purpose Program Charge.
- Have work completed by a licensed contractor.
- Meet minimum alteration criteria and equipment specifications.
- Complete and sign an online program participation agreement, including agreeing to program Terms and Conditions.
- Agree to not receive financial incentives for the same measures or scope of work from other CPUC resource-funded programs.
- Adhere to all applicable federal, state, and local laws and codes.

Incentives

| Multifamily Low-Rise Whole Building Electrification Alteration Incentives (per unit) | 2023 | 2024 | 2025 |
