

Understanding Your Bill

Utility bills can be confusing, but 3CE strives to keep it simple. Southern California Edison (SCE) sends your monthly bill, which includes your SCE charges for electricity delivery followed by your 3CE charges for electricity supply/generation.

Note that 3CE is NOT an added fee; it simply replaces the SCE supply/generation charges on your bill. If you want to know more about your bill, please review the sample bill below that explains the various charges:

3-048-0000-82	1234 Main St Los Angeles, CA	05/25/18 to 06/26/18	DOMESTIC	\$53.55
				\$175.48

COMPONENTS OF YOUR ELECTRICITY BILL

1 Customer Account: Please have your SCE-assigned customer account number on hand if you would like to make changes to your 3CE service.

2 Summary of your billing detail: The first line in this section lists your total delivery charges from SCE. The second line lists your total generation charges from 3CE. SCE assigns a separate service account number to track your 3CE charges but these are NOT added fees – they simply replace supply/generation charges you previously received from SCE as part of your bundled services charges.

3 Electricity Usage: The amount of energy you used in the billing period, measured in kilowatt-hours (kWh). Your energy usage may change significantly depending on weather, appliance use and other factors, and is often the reason for larger bills. If you get a larger than normal bill, you can check your usage here, and also check usage tiers, #7 on the following page.

4 Your rate (SCE): In this section, "Your rate" refers to the SCE rate schedule that determines how you are charged for the delivery of electricity. The most common residential rate schedule is DOMESTIC.

3 Your past and current electricity usage

For meters from 05/25/18 to 06/26/18
Total electricity you used this month in kWh: **850** Your next billing cycle will end on or about 07/25/18

4 Details of your new charges

Your rate: DOMESTIC (SCE)
Billing period: 05/25/18 to 06/01/18 (7 days Winter Season)
06/01/18 to 06/26/18 (25 days Summer Season)

Delivery charges - Cost to deliver your electricity		
Basic charge	32 days x \$0.03100	\$0.99
Energy-Winter		
Tier 1 (100% of baseline)	76 kWh x \$0.08326	\$6.33
Tier 2 (101% to 400%)	56 kWh x \$0.15485	\$8.67
Energy-Summer		
Tier 1 (100% of baseline)	400 kWh x \$0.08380	\$33.52
Tier 2 (101% to 400%)	318 kWh x \$0.15570	\$49.51
CCA cost responsibility surcharge		
PCIA	850 kWh x \$0.01994	\$16.95
DWR Bond Charge	850 kWh x \$0.00549	\$4.66
CTC	850 kWh x \$0.00075	\$0.64
Other charges or credits		
Generation Municipal Surcharge		\$0.66
Subtotal of your new charges		\$121.93
Your new charges		\$121.93

Your Delivery charges include:
 • \$73.30 transmission charges
 • \$73.18 distribution charges
 • \$0.05 nuclear decommissioning charges
 • -\$3.73 conservation incentive adjustment
 • \$10.98 public purpose programs charge
 • \$4.86 new system generation charge
Your overall energy charges include:
 • \$7.10 franchise fees

(Continued on next page)

5 Delivery charges (SCE): SCE's charges for delivering electricity, which include the cost of moving energy from the grid to your home or business and maintaining the electric lines, are paid by all electricity customers, and are exactly the same even if you get your supply/generation from 3CE. Prices may vary by season. Around June and October, your bill may reflect usage and charges for both the end of one season and the beginning of the next.

6 CCA (Community Choice Aggregation) cost responsibility surcharge: These charges are paid by all electricity customers but they are itemized differently on your bill as a 3CE customer. The DWR Bond Charge¹ and CTC (Competition Transition Charge)² are legacy charges related to the cost of deregulation of the California electricity system in the late 1990s and early 2000s. The PCIA, or Power Charge Indifference Adjustment, reimburses SCE for above-market energy contracts SCE entered into in the past to serve its customers, including those now served by 3CE. SCE receives these funds. 3CE discounts its generation rates to account for the PCIA to keep our customers' total bills competitive with SCE. Learn more about 3CE rate options at <https://3cenergy.org/billing/residential-rates>.

- Additional information:**
- Service voltage: 240 volts
 - Your winter baseline allowance: 76.0 kWh
 - Your summer baseline allowance: 400.0 kWh
 - High Usage Charge applies to all usage above 400% of baseline allowance.
 - Generation Municipal Surcharge (GMS) factor: 0.009095
 - 2014 Vintage CRS

7 Your Total Usage: **850 kWh**

Understanding Your Bill...
Your usage for the billing period falls into **Tier 2**. For most customers, the price you pay increases as you use more energy. The average cost per kilowatt (kWh) in the chart to the right is based on averages. Actual prices may vary.

Tier 1	Tier 2	High Usage Charge
476 kWh	374 kWh	0 kWh
\$0.08/kWh	\$0.16/kWh	\$0.26/kWh

Your Total Usage
850 kWh

High Usage Charge - Learn more at on.sce.com/highuse

7 Usage Tiers: For residential customers who are not on Time of Use (TOU) rates, this section indicates how much energy you used during the billing period at each rate tier for your SCE delivery charges. The tier levels are set by state law. Usage under Tier 2 and High Usage are charged at higher prices, which is another reason high usage can result in an unusually high bill. 3CE keeps things simple with flat generation rates that do not vary by usage tier.

Things you should know

SUMMER/WINTER BASELINE CHARGES...

This billing cycle falls between the summer baseline season (which runs from June 1st through September 30th) and the winter baseline season (which runs from October 1st through May 31st). Therefore, you will see two sets of Baseline Charges in the Details section of your bill, reflecting your usage during both the winter and summer baseline seasons. Please note that you were not charged twice for your usage. For more information about baseline seasons, please visit www.sce.com/baseline.

8 Your rate (3CE): In this section, "Your rate" is the 3CE rate schedule that determines how you are charged for electricity supply/generation. If you are on a Time of Use (TOU) rate, the seasons and TOU periods for your 3CE generation charges and your SCE delivery charges are identical.

8 CLEAN POWER ALLIANCE

Your rate: DOMESTIC
Service Account: 3-048-0000-82
Billing period: 05/25/18 to 06/26/18 (32 days)

9 Generation (Supply) Charges 50%

RENEWABLE GENERATION	850.04 KWH @ 0.0627	\$53.30
ENERGY SURCHARGE		\$0.25
Sub-Total of CPA Generation (Supply) Charges		\$53.55
Your New Charges		\$53.55

9 Generation charges (3CE): 3CE's charge for the generation of electricity. This is NOT an additional charge. It replaces the generation charges SCE would collect if it were your supply/generation provider. This section notes the 3CE rate option currently selected for your account: 3Cchoice (xx% renewable) or 3Cprime (100% renewable).
