## POWER FOR GOOD.

Central Coast Community Energy (3CE) is a public agency that sources competitively priced, clean and renewable electricity for more than 1.1 million people.

The agency is governed by local representatives from the 35 city and county governments it serves.

3CE is on a mission to source 100% clean and renewable energy and to use power for good.

Rates are kept affordable and revenue is invested in innovative energy programs designed to benefit the environment and local communities.

<b>Central Coast</b>	3CE is, geographically, the largest community choice agency in the state of California, serving customers across five counties and 8,000+ square miles.
<b>Local</b>	3CE is a local public agency serving diverse communities along the Central Coast, including Santa Cruz, San Benito, Monterey, San Luis Obispo, and Santa Barbara counties.
<b>People</b>	3CE provides service to more than one million Californians.
<b>Choice</b>	Nearly 95% of eligible customers choose 3CE electricity.
<b>Sustainable</b>	3CE and its customers are on a path to 100% renewable energy by procuring new-build renewable energy sources that are creating a cleaner and more reliable grid for California.
<b>Affordable</b>	Most residential and commercial customers save, on average, 16% to 22% on their electricity with 3CE.
<b>Innovative</b>	3CE was one of the earliest investors in solar + storage projects in California, and has funded both the state's first new geothermal project in 30 years and what is set to become the world's largest compressed-air energy-storage facility.
<b>Responsible</b>	3CE has maintained its "A" issuer credit rating from Standard & Poor's for two years running.
<b>Community</b>	In its 2022-23 fiscal year, 3CE allocated \$16M for customer incentives, rebates, and grants to electrify transportation, homes, and businesses.
