

EV Charger Installation Concierge Service

TECHNICAL SUPPORT NOW AVAILABLE

Are you ready to offer electric vehicle charging for your residents, customers, or employees and need a little help? Central Coast Community Energy's Concierge Service can evaluate your property, design a charging station plan, help you with bids from contractors, guide you through construction, and work with you to apply for rebates.

OUR CONCIERGE WILL HELP YOU:

- Conduct a site assessment and feasibility study for your property
- Determine where to place your chargers
- Contract for and complete installation
- Establish written usage policies
- Comply with state and federal regulations

WHY ELECTRIFY?

- Transportation is the biggest contributor to greenhouse gas emissions along the Central Coast
- More EVs will reduce regional emissions and improve air quality
- More EV charging stations at homes, workplaces and eligible public settings will increase access and encourage the adoption of EVs

WHO IS ELIGIBLE?

- Consumer, commercial, industrial, and agricultural businesses
- Public agencies
- Multifamily housing properties
- Public parking lots

WHAT REBATES ARE AVAILABLE?

- Up to \$8,000 per commercial project for Level 2 chargers
- Up to \$20,000 per multifamily project for Level 2 chargers
- Up to \$100,000 per project for Level 3 / DC Fast Chargers for participants in Concierge Service
- Includes labor and material costs for installation, including electrical panel upgrades/replacements
- Commercial property owners can apply for up to three Project Sites
