We support your power to choose

As part of our mutual commitment to support your energy choice, Central Coast Community Energy (3CE) and Pacific Gas and Electric Company (PG&E) have partnered to provide you with a comparison of our typical electric rates, average monthly charges and sources of energy generated. This year, the CPUC Executive Director authorized an extension to provide this notice to customers by September 1.

The CPUC requires all CCAs to send this Joint Rate Mailer to all customers once a year. You can opt to receive an email or a printed copy; please email 3CE at NorthSupport@3CE.org or call us at **1-877-455-2223** to update your preferences. If you have further questions please contact 3CE, or PG&E at pge.com/cca or **866-743-0335**.

Understanding your energy choice

2024 Residential Rate Comparison, ETOUC*

		
Generation Rate (\$/kWh)	\$0.16074	\$0.12224
PG&E Delivery Rate (\$/kWh)	\$0.28965	\$0.28965
PG&E PCIA/FF (\$/kWh)	\$0.00920	\$0.01079
Total Electricity Cost* (\$/kWh)	\$0.45959	\$0.42268
Average Monthly Bill (\$)	\$172.57	\$158.71

*This compares electricity costs for an average residential customer in the 3CE/PG&E service area (Monterey, San Benito, Santa Barbara, San Luis Obispo, and Santa Cruz Counties) with an average monthly usage of 375 kilowatt-hours (kWh). This is based on a representative 12-month billing history for all customers on E-TOU-C rate schedules for PG&E's published rates as of June 1, 2024, and for 3CE's published rates as of January 1, 2024.

GENERATION RATE is the cost of creating electricity to power your home. The generation rate varies based on your energy provider and the resources included in your energy provider's generation supply.

PG&E DELIVERY RATE is a charge assessed by PG&E to deliver electricity to your home. The PG&E delivery rate depends on your electricity usage, but is charged equally to both 3CE and PG&E customers.

PG&E PCIA/FF The Power Charge Indifference Adjustment (PCIA) is a charge to ensure that both PG&E customers and those who have left PG&E service to purchase electricity from other providers pay the above market costs for generation resources that were procured by PG&E on their behalf. "Above market" refers to expenditures for electric generation resources that cannot be fully recovered through sales of these resources at current market prices. PG&E acts as a collection agent for the Franchise Fee (FF) surcharge, which is levied by the California Public Utilities Commission (CPUC) on behalf of cities and counties in PG&E's service territory for all customers. PG&E bundled customers pay the PCIA and FF fees associated with the most currently available vintage year. PG&E charges CCA customers the PCIA and FF fees based on the year that they transitioned to 3CE service. Visit 3Cenergy.org for more information.

If this comparison does not address your specific rates, please visit PG&E online at pge.com/cca or call **866-743-0335**. For information about 3CE's generation rates, please visit 3cenergy.org or call **877-455-2223**.

2023 Electric Power Generation Mix*

		
	% of Total Retail Sales (MWh)	% of Total Retail Sales (MWh)
Renewable Procurements	32.8%	30.5%
• Biomass & Biowaste	3.4%	0.7%
• Geothermal	0.3%	12.9%
• Eligible Hydroelectric	2.5%	0.4%
• Solar Electric	20.2%	13.0%
• Wind	6.3%	3.5%
Coal	0.0%	0.0%
Large Hydroelectric	13.8%	0.1%
Natural Gas	0.0%	0.0%
Nuclear	53.4%	0.0%
Other	0.0%	0.0%
Unspecified Sources of Power^	0.0%	69.4%
TOTAL	100%	100%

*As reported to the California Energy Commission's Power Source Disclosure Program. 3CE and PG&E data is subject to an independent audit and verification that will not be completed until later in 2024. The figures above may not sum up to 100 percent due to rounding.

^Unspecified sources of power refers to electricity that is not traceable to a specific generating facility, such as electricity traded through open market transactions. Unspecified sources of power are typically a mix of all resource types, and may include renewables.
