

Electric Bus Program

PLUG IN TO REBATES AND INCENTIVES

Replace your diesel-powered school, farmworker, or transit buses with clean-running electric buses and reduce overhead costs, while improving air quality

WHO IS ELIGIBLE?

- Public schools and school districts
- Businesses that offer farmworker transport services
- Transit authorities

Applicants must be 3CE customers

WHY ELECTRIFY?

- Electric buses are more cost effective to run and maintain than diesel
- Buses powered by cleaner energy emit fewer harmful pollutants and greenhouse gases
- People riding an electric bus are happier, healthier and safer¹

¹ Bureau of Transportation Statistics

WHAT REBATES OR INCENTIVES ARE AVAILABLE?

- 50% of the base cost, up to \$200,000 for the first bus purchased
- \$50,000 rebate per additional bus purchased, up to \$400,000 (5 buses)
- Incentives available on a first-come, first-served basis
- Federal, state and county programs and incentives are also available; see the program web page under "Resources"
- 3CE's Electrify Your Ride Commercial Program offers up to \$8,000 for Level 2 chargers and up to \$100,000 for DFCs, including materials and labor. Apply at <https://3cenergy.org/rebates/electrify-your-ride-commercial>
