Bidirectional Charger	\$500 additional	\$500 additional	\$500 additional

\*For the 48 Contiguous States, 2025 (adjusted gross annual income)

## WHY ELECTRIFY?

More EV charging stations at homes, workplaces and public settings will encourage EV adoption

Transportation is the biggest contributor to greenhouse gas emissions along the Central Coast

EVs require less maintenance and cost less to operate—savings over time

3CE rebates are stackable with other local, state, and federal funding programs
