

ELECTRIC BUS PROGRAM

Replace your diesel-powered **school, farmworker, or transit** buses with electric models and reduce overhead costs while improving air quality

ELIGIBILITY & REBATES

WHO IS ELIGIBLE?

- Public schools & school districts
- Farmworker transport services
- Transit agencies

All applicants must be enrolled in 3CE service

WHAT IS ELIGIBLE?

- School Bus Types A-D
- Shuttle Buses/Vans
- Transit Buses & Motor Coaches

A combination of bus types is eligible for multiple rebates

Number of Buses	Bus Type - Small	Incentive Amount	Maximum \$ Value	Bus Type - Large	Incentive Amount	Maximum \$ Value
1		50% of measure cost	\$150,000		50% of measure cost	\$150,000
2	School Bus - Type A School Bus - Type B	\$25K flat rebate per bus	\$175,000	School Bus - Type C School Bus - Type D	\$50K flat rebate per bus	\$200,000
3	Shuttle Bus Other		\$200,000	Transit Bus Motor Coach		\$250,000
4			\$225,000			\$300,000
5			\$250,000			\$350,000

WHY ELECTRIFY?

Electric buses are more cost-effective to run and maintain than diesel

Buses powered by clean energy emit less harmful pollutants

3CE rebates are stackable with other local, state, and federal funding programs

Up to \$8,000 available for Level 2 charging infrastructure & equipment
