

Item	Questions	3CE Response
1	Would receiving an award as the technical assistance provider preclude us from bidding on the install and equipment provision?	Yes, you would be precluded from bidding to install equipment for any 3CE owned EV charger projects. You may also be precluded from bidding on installing equipment owned by others using these documents, but it would need to be confirmed with entity/owner at the time of bid.
2	Requirements for Section 2 of the proposal indicate that copies of license, degree, and/or certificates must be included in this section. Can 3CE clarify what is expected for copies of degrees?	Copies of degrees may include applicable university degrees or certifications that pertain to relevant skills mentioned in the RFP.
3	Can you clarify the difference between project references that are requested to be included in Section 3 of the response and limited to three and the references mentioned in Section 5 of the response? In Section 5, can respondents provide additional references beyond the three requested in Section 3?	<p>Section 3 requests respondents to provide three similar projects or contracts for which it provided services like the scope of work described in the RFP. Section 3 requests respondents to include phone numbers (and email addresses, if possible) of key contacts from these job experiences, as 3CE may conduct reference checks using this information.</p> <p>Section 5 requests respondents to include examples of projects and/or customers that would help 3CE in understanding respondents' experience. 3CE will not contact these projects / entities. The projects/entities that respondent references in section 5 may be in excess of three examples, as these are independent of references provided in section 3.</p>
4	The Part 1 Labor Rates tab of the fee schedule attachment includes predefined roles/responsibilities. Are respondents limited to positions included on this tab or may they edit and/or add to the list of roles/responsibilities?	Respondents may add to the list of roles/responsibilities. If a prelisted role does not apply to the respondent, please write "N/A." Please refrain from removing any prelisted roles.
