

We support your power to choose

As part of our mutual commitment to better serve customers, Southern California Edison (SCE) and Central Coast Community Energy (3CE) have jointly created a comparison of our common electric rates, average monthly charges, and generation portfolio contents. If you are not sure about your specific electric rate, this information can be found on the detailed page of your bill directly beneath the heading that reads "Details of your new charges."

The CPUC requires all Community Choice Aggregators (CCAs) to send this Joint Rate Mailer to all customers once a year. To update your preferences, please email 3CE at **southSupport@3CE.org** or call us at **877-455-2223**, or email SCE at **CCASVCS@sce.com** or call SCE at **800-974-2356**. If you have further questions please contact 3CE, or SCE at **sce.com/cca** or **800-974-2356**.

Understanding your energy choice

2026 Commercial Rate Comparison, TOU-GS-1-E*

	 SOUTHERN CALIFORNIA EDISON	 3Cchoice
SCE Delivery Rate (\$/kWh)	\$0.19157	\$0.19157
Generation Rate (\$/kWh)	\$0.10928	\$0.10285
SCE Surcharges (\$/kWh)	N/A	\$0.01545
Total Electricity Cost* (\$/kWh)	\$0.30085	\$0.30987
Average Monthly Bill (\$)	\$266.55	\$274.54

*This compares electricity costs for an average commercial customer in the SCE service area (Carpinteria, Goleta, and southern Unincorporated Santa Barbara County) with an average monthly usage of 886 kilowatt-hours (kWh). This is based on a representative 12-month billing history for all customers on TOU-GS-1-E rate schedules for SCE's published rates as of June 1, 2026, and for 3CE's published rates as of February 15, 2026.

GENERATION RATE reflects the cost of producing or purchasing electricity to power your business. This rate depends on usage, and will vary depending on your service provider and rate plan.

SCE DELIVERY RATE is a charge assessed by SCE to deliver electricity to your business. This rate depends on usage.

SURCHARGES represents the Cost Responsibility Surcharge (CRS) and Franchise Fee (FF) that are applicable to Community Choice Aggregation (CCA) customers and SCE customers that elect a Green Rate. The CRS is a surcharge to recover costs associated with power

purchases made on behalf of customers prior to a customer's switch to a CCA or SCE Green Rate. The FF recovers taxes owed to a city in exchange for allowing SCE to utilize electrical distribution lines throughout the property of the city. SCE acts as the collection agency for the FF surcharge which is levied by cities and counties for all customers.

If this comparison does not address your specific rates, please visit SCE online at sce.com/cca or call **800-974-2356**. For information about 3CE's generation rates, please visit 3cenergy.org or call **877-455-2223**.

2025 Electric Power Generation Mix*

	 SOUTHERN CALIFORNIA EDISON	 3Cchoice
Renewable Procurements	41.3%	46.9%
• Biomass & Biogas	0.1%	0.9%
• Geothermal	5.7%	10.4%
• Eligible Hydroelectric	0.6%	0.4%
• Solar	22.9%	20.9%
• Wind	12.0%	14.3%
Coal & Petroleum	0.0%	0.0%
Large Hydroelectric	4.7%	0.0%
Natural Gas	5.1%	0.0%
Nuclear	14.0%	0.0%
Other	0.1%	0.0%
Unspecified Sources of Power^	34.8%	53.1%
TOTAL	100%	100%

*As reported to the CA Energy Commission's Power Source Disclosure Program excluding unbundled renewable energy credits. The figures above may not sum up to 100% due to rounding. For specific information about the power generation mix, contact SCE at 800-974-2356 and 3CE at 877-455-2223.

^Unspecified sources of power refers to electricity that is not traceable to a specific generating facility, such as electricity traded through open market transactions. Unspecified sources of power are typically a mix of all resource types, and may include renewables.
