

# CHARGE YOUR FLEET

Central Coast Community Energy provides **rebates** for your agency's transition to electric transportation!

## ELIGIBILITY & REBATES

### WHO IS ELIGIBLE

Member agencies (cities and counties that have joined the 3CE Joint Powers Authority).

### WHAT IS ELIGIBLE

Purchase, construction and installation costs associated with Electric vehicle service equipment.

| Project Type               | Site Type                 | Per Measure Incentive            |
|----------------------------|---------------------------|----------------------------------|
| Level 2 EVSE: Charger Port | Standard                  | Up to \$5,000 per port           |
|                            | DAC or LIC Site*          | Up to \$8,000 per port           |
| Level 3 DCFC Installation  | Standard, DAC or LIC Site | Up to \$100,000 per installation |

\*Agencies installing charging projects in priority community areas are now eligible for additional incentives. 3CE determines DAC/LIC eligibility based on the California Climate Investments Priority Populations.

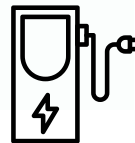

## WHY ELECTRIFY?

Transportation is the biggest contributor to greenhouse gas emissions along the Central Coast

Provide required infrastructure for growing EV adoption across municipal fleets

More EV charging stations at workplaces and public settings will encourage EV adoption

3CE rebates are stackable with other local, state, and federal funding programs
